## WHAT WE DO

Ipas africa Alliance works to improve women's and young women's ability to obtain comprehensive abortion care and to prevent unwanted pregnancy by:

- » Training doctors, nurses and midwives in clinical and counselling skills for abortion, postabortion care and family planning;

- » Improving health-service delivery to make abortion safe and accessible for women and less costly for the health system
- » Researching the impact of unsafe abortion and documenting best abortion care practices and policies;
- » Raising awareness of how safe abortion saves lives and reforming restrictive laws that harm women;
- » Engaging with women and men in their communities to expand their knowledge of reproductive health and rights;
- » Increasing access to innovative reproductive health technologies, including manual vacuum aspiration (MVA) and medical abortion.

## WHAT YOU CAN DO

The denial of safe abortion care is a global problem. But individuals like you can be part of the solution. You can save women's and girls' lives with these simple actions:

- » Help make abortion safe, legal and available to all women by donating to Ipas.
- » Speak out in support of women's access to contraception and safe abortion, as well as their right to make their own reproductive decisions.
- » Support policies that make women's reproductive freedom a right and a reality.
- » Learn more about our work and the impact of unsafe abortion on our website: [www.ipas.org](http://www.ipas.org).
- » Like us on Facebook: [www.ipas.org/facebook](http://www.ipas.org/facebook).
- » Visit our YouTube channel: [www.ipas.org/youtube](http://www.ipas.org/youtube).
